Bio - Chwen Sheu (https://cba.k-state.edu/faculty-staff/directory/Sheu-Chwen.html)

Chwen Sheu is the Paul Edgerley chair in business administration and the Associate Dean of College of Business Administration at Kansas State University, United States. Sheu received his doctorate in operations management from Ohio State University.

Sheu is nationally and internationally recognized in Theory of Constraints (TOC) and supply chain management with a focus on continuous improvement, supply chain relationship, outsourcing, manufacturing sustainability and global manufacturing

management. His work has received numerous best paper and research award honors from several academic organizations and professional meetings. Sheu has served as the president of the Global Manufacturing Research Group and is currently the vice president of education for the Council of Supply Chain Management Professionals in Kansas City. He has consulted for more than 40 firms — Boeing, Kansas Global Trade Services, China Mobile, Centralized Supply Chain Services (CSCS), ETC Institute, Western Resources, Taipei Computer Association, Motorola, and more — in the areas of supply chain management, continuous improvement, and project management.

SELECTED SERVICE ACTIVITIES

Associate Dean for Academic Programs & Director of MBA Program (Fall 2015 – present)

As an Associate Dean for academic programs, I had a wide range of responsibilities, including graduate programs, undergraduate programs, research, honor's programs, distance education, assessment of learning (AOL), etc.

1. Development and Growth of Graduate Programs

- New programs: MS Data Analytics (on campus and distance); Seven dual-degree programs (2+1 or 4+1)
- CBA Graduate Programs Enrollment (excluding MAcc):

	F2015	F2016	F2017	F2018	F2019	F2020	F2021	F2023
Enrollment	110	129	143	153	179	231	233	224

2. Creation of Graduate Studies Advisory Council (GSAC)

GSAC was formed in the fall of 2015 with 9 members. We currently have 33 members. Over the years, this council has contributed significantly to the graduate programs, the College Plan, and the University in many ways: student/faculty projects, student internships, hiring, gifts, guest lectures, business education, collaborating with the business community, and influencing business practices and knowledge.

3. Gifts/Fundraising

While this is not one of my official responsibilities, I have been able to identify and receive more than \$600,000 in donations/gifts for the College and Graduate Programs during the process of promoting our academic programs.

4. Business Community Partnership

Using GSAC, MBA capstone course, and the data analytics program as mechanisms, I have successfully developed relationships with the business community. An article recently published by K-State Alumni Association (November 2019) summarizes the philosophy and approaches I have taken to do so.

Department Head (2010-2014)

As a department head, I had a wide range of responsibilities, including evaluating faculty performance, scheduling classes, supporting faculty and student activities, resolving personnel issues, reviewing and upgrading curriculum, assessing learning outcomes, staffing, meeting with alums and business communities; working with the department advisory board, engaging in fund raising, making Business Orientation presentations; meeting with parents and prospective students; developing and implementing the departmental strategic plan, supporting K-State 2025 strategic plan, etc.
